LOWER COST, HIGHER POWER

## Custom Solutions

Energy Freedom LLC is a market-leading carbon-neutral battery manufacturer providing a closed-loop, zero-landfill solution for sustainable energy globally. Our team has designed, manufactured, and taken to market over 50 unique lithium solutions globally. Our sustainable solutions power off-grid homes, golf carts, industrial equipment, RVs, emergency power, electric boats, wind turbines, electric grid stabilizers and more at the best price per kWh in the USA. We have created the most efficient, affordable, safe, and sustainable battery technology available today.

## Quality OEM Assurance

We prioritize quality, reliability, and cost-efficiency in creating battery systems that seamlessly integrate into your machines. Whether you need a high-capacity solution for long runtimes or a cost-effective battery that beats lead-acid in performance and price, our battery technology engineers are eager to create the perfect power solution for you.

## Tailored Solutions

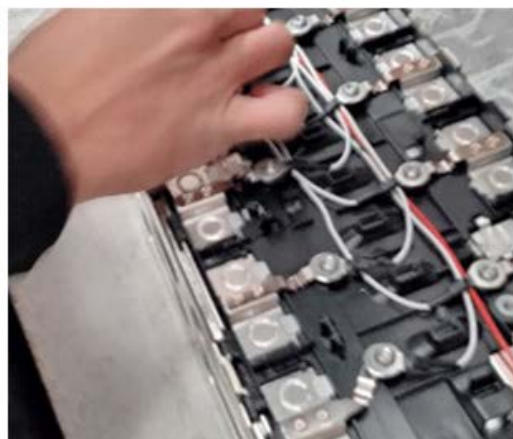

*CAD Design*

*Cell Testing*

*Module Manufacturing*

*Battery Assembly*

# ABOUT US

LOWER COST, **HIGHER POWER**

Residing in the heart of America, Energy Freedom LLC specializes in electric power solutions for many applications. Our products boast over 12 years of experience in generating reliable, affordable, and efficient power for RVs internationally. Our vision is to become the leading provider of power system solutions in the electric market. Join us as we bring energy freedom to the world.

# LEADING INNOVATIONS

## MORE THAN 100 AUTHORIZED INVENTION PATENTS AND UTILITY MODEL PATENTS

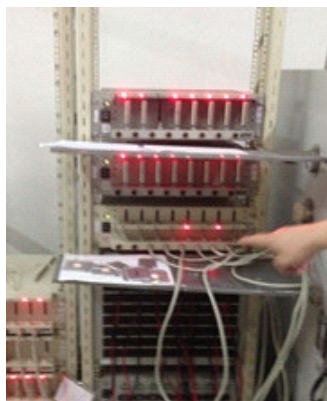

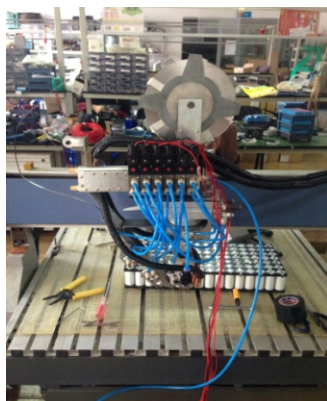

All UL Certification Tests Passed

LOWER COST, HIGHER POWER
